

Date : 29th April 2021

Our valued customers need responsive and trusted OEM service and support for their Pressure Relief Valves, Control Valves and Isolation valves. As such, Emerson has accredited Industrial Valve Services to provide local service and support primarily, but not limited to, the South Wales region, United Kingdom.

As an Authorized Service Provider, Industrial Valve Services has met the criteria to provide OEM service and support for Emerson's Pressure Relief Valves, Control Valves and Isolation valve products. The facilities have also been audited to ensure repair processes and equipment align with Emerson standards.

Authorized Service Providers serve as an extension of Emerson's service centers, creating an expansive global network of trusted, local, OEM support for our Pressure Relief Valves, Control Valves and Isolation valve customers.
